

Welcome to

# Stack Overboard!

End of Year  
Virtual Boat Party

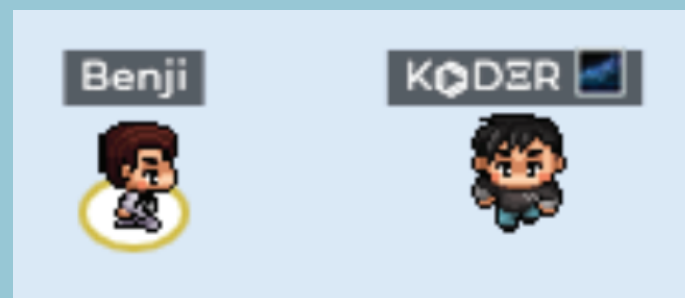

You can move using WASD or your  
arrow keys

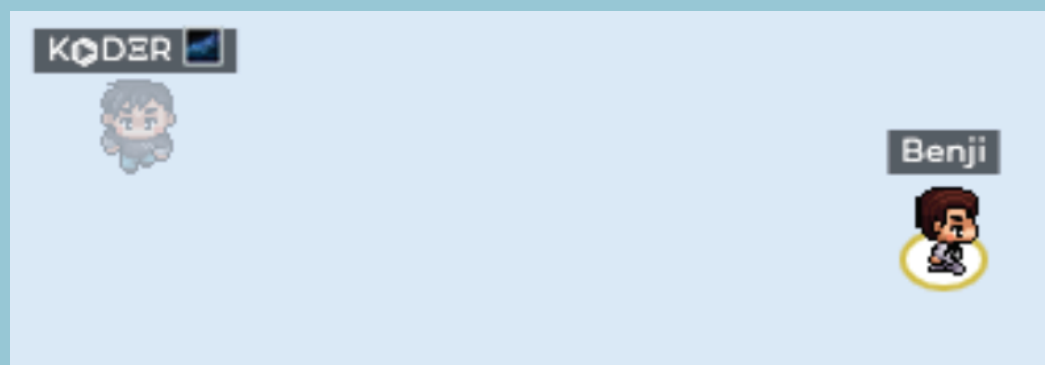

Press X to interact with an object  
when you see a yellow outline

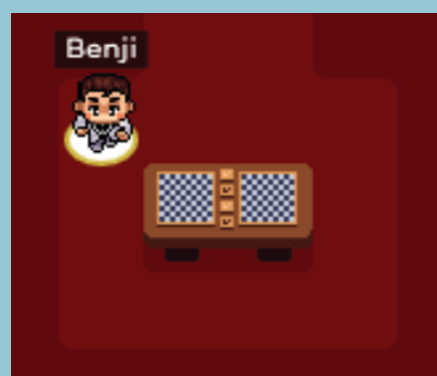

Move close to people to speak to them

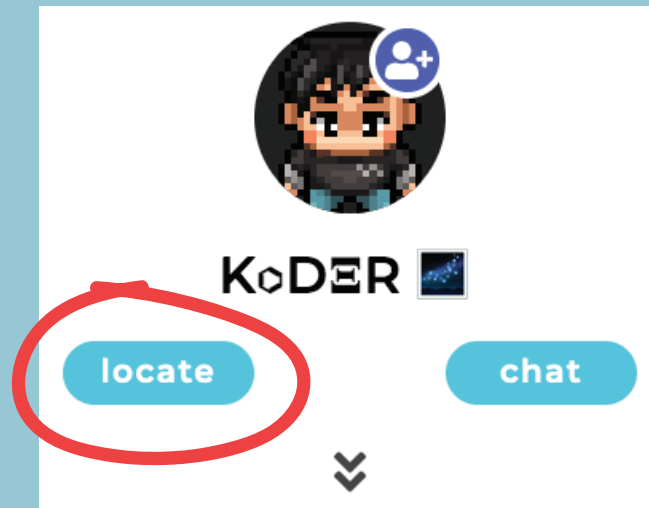

If they are transparent, you're too far away!

If you enter a "private space", usually around tables, you will only be able to see the people who are also in that space

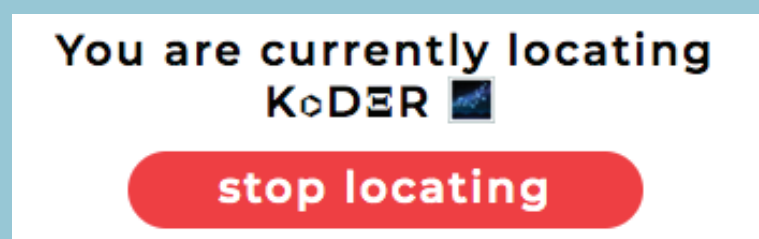

Want to find a friend? Find their profile on the side, and click "locate"

Then, just follow the path!

Once you've found them, you can click "stop locating" in the sidebar

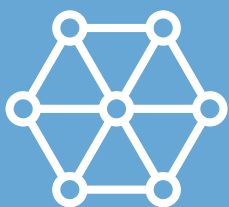

Have fun!

If you need any help during the night, just ask in the chat in the sidebar; make sure to select "global chat"!

We'd love you to give us feedback on this event when you leave, just visit:
